**FOR IMMEDIATE RELEASE**

## Lane Closure for Hilltop Drive Overcrossing on I-80

**Richmond** – The left lane of the I-80 westbound Hilltop Drive overcrossing will be closed Tuesday, Sept. 16 at 8 p.m. This closure will allow AT&T to reconstruct manholes, trench and commence relocating its telecommunication lines in preparation for the I-80/Hilltop Drive Bridge Replacement Project that will begin later this year.

The dedicated left turn lane on the adjacent eastbound Hilltop Drive off-ramp will also be closed at this time. This off-ramp lane will remain closed until the completion of the bridge replacement project in fall 2009. Drivers exiting eastbound I-80 can still turn left onto Hilltop Drive by using the adjacent ramp lane.

The right lane, bus turnout, and sidewalk will remain open during construction. No lane closures are expected for eastbound traffic during the AT&T project.
